

## TABLE OF CONTENTS

	Page
READER'S GUIDE .....	1
LIST OF ABBREVIATIONS .....	A-1
GLOSSARY .....	G-1
MWRA CSO PROGRAM REPOSITORIES .....	L-1
REFERENCES .....	R-1
CHAPTER 1 - REVISIONS TO DRAFT DOCUMENT .....	1-1
1.1 OVERVIEW OF THE RECOMMENDED PLAN .....	1-1
1.2 CHANGES TO THE DRAFT RECOMMENDED PLAN .....	1-2
1.2.1 Sewer Separation Projects .....	1-8
1.2.2 Existing Facility Upgrades .....	1-8
1.2.3 Floatables Control Projects .....	1-9
1.2.4 Projects Subject to Facilities Planning and Environmental Review .....	1-9
1.3 PROGRESSION OF RECOMMENDED PLAN DEVELOPMENT .....	1-25
Review of Conceptual Planning Alternatives .....	1-26
1.4 COST PERFORMANCE EVALUATIONS AND PROJECT OPTIMIZATION .....	1-27
1.4.1 Cost/Performance Evaluations .....	1-27
1.4.2 Project Optimization .....	1-28
1.5 ORGANIZATION OF THE DOCUMENT .....	1-29
CHAPTER 2 - REQUIREMENTS FOR CSO CONTROL PLANNING .....	2-1
2.1 WHAT ARE CSOs? .....	2-1
2.2 WHY HAS MWRA PREPARED THIS CSO PLAN? .....	2-5
CHAPTER 3 - OVERVIEW OF MWRA PLANNING EFFORTS .....	3-1
3.1 MWRA ROLE IN CSO PLANNING .....	3-1
3.2 CHRONOLOGY OF CSO PLANNING EFFORTS .....	3-3
3.2.1 1994 CSO Conceptual Plan .....	3-5
3.2.2 1997 Recommended CSO Control Plan .....	3-6
CHAPTER 4 - CONCEPTUAL PLAN FOR CSO CONTROL .....	4-1
4.1 PLANNING ASSUMPTIONS .....	4-1
4.1.1 Key Planning Parameters .....	4-1
4.1.2 Existing Conditions .....	4-2
4.2 WATERSHED-BASED APPROACH .....	4-3
4.2.1 Water Quality Assessments .....	4-5
4.2.2 Water Quality Goals .....	4-9
4.2.3 CSO Control Goals .....	4-10
4.3 TECHNOLOGY AND WATER QUALITY BASED EVALUATIONS .....	4-11

## TABLE OF CONTENTS (Cont'd)

	<u>Page</u>
4.3.1 CSO Control Technologies .....	4-11
4.3.2 Initial Development and Screening of CSO Alternatives .....	4-12
4.4 PUBLIC PARTICIPATION EFFORTS .....	4-22
4.5 CSO CONCEPTUAL PLAN AND BENEFITS .....	4-24
4.5.1 North Dorchester Bay .....	4-26
4.5.2 South Dorchester Bay .....	4-33
4.5.3 Neponset River .....	4-36
4.5.4 Constitution Beach .....	4-38
4.5.5 Upper Charles River .....	4-41
4.5.6 Lower Charles River .....	4-44
4.5.7 Back Bay Fens .....	4-47
4.5.8 Alewife Brook .....	4-50
4.5.9 Upper Mystic River .....	4-53
4.5.10 Upper Inner Harbor .....	4-55
4.5.11 Lower Inner Harbor .....	4-59
4.5.12 Mystic/Chelsea Confluence .....	4-62
4.5.13 Reserved Channel .....	4-65
4.5.14 Fort Point Channel .....	4-68
CHAPTER 5 - SUMMARY OF RECOMMENDED CSO CONTROL PLAN .....	5-1
5.1 INTRODUCTION .....	5-1
5.2 SUMMARY OF THE SITING PROCESS .....	5-2
5.3 PROJECT DESCRIPTIONS AND WATER QUALITY BENEFITS .....	5-4
5.3.1 Overview of the Recommended Plan .....	5-4
5.3.2 Projects Not Subject to Facilities Planning/Environmental Review ...	5-14
5.3.3 Descriptions of CSO Control Projects .....	5-16
5.4 IMPLEMENTATION PLAN AND PROJECT COST .....	5-23
5.4.1 Schedule Development .....	5-23
5.4.2 Implementation Schedule and Project Costs .....	5-26
5.5 SUMMARY OF PUBLIC PARTICIPATION PROGRAM .....	5-28
CHAPTER 6 - FEDERAL AND STATE REGULATIONS AND CSO POLICIES .....	6-1
6.1 CLEAN WATER ACT AND NPDES REQUIREMENTS .....	6-1
6.2 NATIONAL POLICY FOR CSO CONTROL .....	6-2
6.2.1 Presumption Approach .....	6-4
6.2.2 Demonstration Approach .....	6-5
6.3 STATE POLICY FOR CSO CONTROL .....	6-6
6.3.1 1990 DEP CSO Policy .....	6-9
6.3.2 1997 DEP Draft Updated/Expanded CSO Policy .....	6-12
6.3.3 Requirements for Long-Term CSO Control Plans .....	6-17

## TABLE OF CONTENTS (Cont'd)

	<u>Page</u>
6.3.4 NPDES Permits for CSOs .....	6-17
6.3.5 Public Participation .....	6-18
<b>CHAPTER 7 - COMPLIANCE WITH CSO POLICIES AND WATER QUALITY</b>	
<b>STANDARDS</b> .....	7-1
7.1 COMPLIANCE WITH FEDERAL REQUIREMENTS .....	7-1
7.1.1 Planning Process .....	7-1
7.1.2 Water Quality Evaluations .....	7-3
7.2 COMPLIANCE WITH STATE REQUIREMENTS .....	7-31
7.2.1 Planning Process .....	7-31
7.2.2 Water Quality Evaluations .....	7-32
<b>CHAPTER 8 - MEPA FILINGS AND DECISIONS</b> .....	8-1
8.1 PROJECT TITLE .....	8-1
8.2 EOE SECRETARIAL DECISIONS .....	8-1
8.2.1 Environmental Notification Form .....	8-1
8.2.2 Interim Assessment of Facility Siting .....	8-3
8.2.3 Draft Environmental Impact Report .....	8-6
8.3 SUMMARY OF PROJECT CHANGES SINCE LAST MEPA FILING .....	8-7
8.4 SUMMARY OF MAJOR ENVIRONMENTAL EFFECTS AND PROPOSED	
MITIGATION MEASURES .....	8-11
8.4.1 Phase I Waiver Projects .....	8-11
8.4.2 New Facilities .....	8-12
8.4.3 Consolidation Conduits .....	8-13
8.4.4 New Pipelines and Connections .....	8-15
8.5 ALTERNATIVES TO THE PROPOSED PROJECT .....	8-16
8.6 PROJECT SCHEDULE AND COST .....	8-19
8.7 OTHER INFORMATION .....	8-19
8.7.1 Federal and State Permits .....	8-19
8.7.2 Financial Assistance .....	8-22
8.7.3 Massachusetts Historical Commission .....	8-22
8.7.4 Organization of the Report in Relation to MEPA Filings .....	8-23
<b>CHAPTER 9 - PUBLIC PARTICIPATION PROGRAM</b> .....	9-1
9.1 TECHNICAL ADVISORY COMMITTEE .....	9-1
9.2 NEIGHBORHOOD MEETINGS AND PUBLIC COMMENT PERIOD .....	9-3
9.3 WORKSHOPS .....	9-6
9.4 OTHER COMMUNICATION .....	9-6

## TABLE OF CONTENTS (Cont'd)

	<u>Page</u>
9.5 PUBLIC PARTICIPATION FOR STATE WATER QUALITY DETERMINATIONS .....	9-7
9.6 FUTURE PUBLIC PARTICIPATION EFFORTS .....	9-7
CHAPTER 10 - FORT POINT CHANNEL STORAGE CONDUIT .....	10-1
10.1 INTRODUCTION AND PROJECT BACKGROUND .....	10-2
10.2 CONCEPTUAL PLANNING EVALUATIONS .....	10-4
10.3 PROJECT OBJECTIVES AND DESIGN CRITERIA .....	10-16
10.3.1 Project Objectives .....	10-16
10.3.2 Design Criteria .....	10-17
10.4 ENGINEERING ALTERNATIVES AND EVALUATIONS .....	10-22
10.4.1 Technology Evaluations .....	10-23
10.4.2 Route Alternatives .....	10-30
10.4.3 Outfall Closing and Floatables Control .....	10-35
10.4.4 Summary .....	10-39
10.5 COMPARISON OF ALTERNATIVES .....	10-44
10.5.1 Cost Comparison of Alternatives .....	10-44
10.5.2 Construction Risk and Performance Reliability Comparison of Alternatives .....	10-44
10.5.3 Environmental Comparison of Alternatives After Mitigation .....	10-48
10.5.4 Preferred Alternative .....	10-49
10.6 OPTIMIZATION OF THE PREFERRED ALTERNATIVE .....	10-50
10.6.1 CSO Volumes and Pollutant Loads .....	10-51
10.6.2 Cost-Effectiveness Analysis .....	10-53
10.7 ENVIRONMENTAL EVALUATION .....	10-58
CHAPTER 11 - NORTH DORCHESTER BAY CONSOLIDATION CONDUIT .....	11-1
11.1 INTRODUCTION AND PROJECT BACKGROUND .....	11-2
11.2 CONCEPTUAL PLANNING EVALUATIONS .....	11-4
11.3 PROJECT OBJECTIVES AND DESIGN CRITERIA .....	11-18
11.3.1 Project Objectives .....	11-19
11.3.2 Design Criteria .....	11-19
11.4 ENGINEERING ALTERNATIVES AND EVALUATIONS .....	11-29
11.4.1 Technology Evaluations .....	11-30
11.4.2 Route Sections and Route Alternatives .....	11-40
11.4.3 Impacts of Capturing Stormwater Tributary to Outfalls BOS081 to BOS087 .....	11-59
11.4.4 Summary .....	11-65
11.5 COMPARISON OF ALTERNATIVES .....	11-66
11.5.1 Section A .....	11-66

## TABLE OF CONTENTS (Cont'd)

	<u>Page</u>
11.5.2 Section B .....	11-72
11.5.3 Section C .....	11-73
11.5.4 Summary of Preferred Alternative .....	11-76
11.6 ENVIRONMENTAL EVALUATION .....	11-80
11.6.1 Baseline Environmental Conditions .....	11-80
11.6.2 Environmental Impacts .....	11-80
CHAPTER 12 - RESERVED CHANNEL CONSOLIDATION CONDUIT .....	12-1
12.1 INTRODUCTION AND PROJECT BACKGROUND .....	12-1
12.2 CONCEPTUAL PLANNING EVALUATIONS .....	12-4
12.3 PROJECT OBJECTIVES AND DESIGN CRITERIA .....	12-18
12.3.1 Project Objectives .....	12-18
12.3.2 Design Criteria .....	12-19
12.4 ENGINEERING ALTERNATIVES AND EVALUATIONS .....	12-27
12.4.1 Technology Evaluations .....	12-27
12.4.2 Route Alternatives .....	12-31
12.4.3 Outfall Closing and Floatables Control .....	12-44
12.4.4 Summary .....	12-55
12.5 COMPARISON OF ALTERNATIVES .....	12-55
12.5.1 Cost .....	12-55
12.5.2 Construction Risk .....	12-58
12.5.3 Environmental Comparison of Alternatives After Mitigation .....	12-59
12.5.4 Selection of Preferred Alternative .....	12-59
12.6 ENVIRONMENTAL EVALUATION .....	12-61
12.6.1 Baseline Environmental Conditions .....	12-61
12.6.2 Environmental Impacts .....	12-62
CHAPTER 13 - RESERVED CHANNEL CSO FACILITY .....	13-1
13.1 INTRODUCTION AND PROJECT BACKGROUND .....	13-2
13.2 CONCEPTUAL PLANNING EVALUATIONS .....	13-5
13.3 PROJECT OBJECTIVES AND DESIGN CRITERIA .....	13-5
13.3.1 Project Objectives .....	13-5
13.3.2 Design Criteria .....	13-6
13.4 ENGINEERING ALTERNATIVES AND EVALUATIONS .....	13-9
13.4.1 Floatables Control Technologies for the Reserved Channel CSO Facility .....	13-10
13.4.2 Disinfection Technologies .....	13-21
13.4.3 Facility Outfall Conduit Evaluations .....	13-31
13.4.4 Evaluation of Dewatering Force Main Route .....	13-36

## TABLE OF CONTENTS (Cont'd)

	<u>Page</u>
13.4.5 Site Alternatives Evaluations .....	13-39
Other Project Alternatives .....	13-42
13.4.6 Floatables Control at Regulators .....	13-54
13.5 COMPARISON OF ALTERNATIVES .....	13-70
13.5.1 Costs .....	13-70
13.5.2 Construction Risk and Performance Reliability Comparison of Alternatives .....	13-74
13.5.3 Environmental Comparison of Alternatives After Mitigation .....	13-75
13.5.4 Selection of Preferred Alternative .....	13-76
13.6 ENVIRONMENTAL EVALUATION .....	13-77
13.6.1 Baseline Environmental Conditions .....	13-78
13.6.2 Environmental Impacts .....	13-78
CHAPTER 14 - STONY BROOK SCREENING AND DISINFECTION FACILITY .....	14-1
14.1 INTRODUCTION AND PROJECT BACKGROUND .....	14-2
14.2 CONCEPTUAL PLANNING EVALUATIONS .....	14-9
14.3 PROJECT OBJECTIVES AND DESIGN CRITERIA .....	14-23
14.3.1 Project Objectives .....	14-24
14.3.2 Design Criteria .....	14-24
14.4 ENGINEERING ALTERNATIVES AND EVALUATIONS .....	14-31
14.4.1 Floatables Control Technologies for the Screening and Disinfection Facility .....	14-31
14.4.2 Disinfection/Dechlorination Technologies .....	14-43
14.4.3 Screening and Disinfection Facility Alternatives Evaluations .....	14-52
14.4.4 Sewer Separation .....	14-62
14.4.5 Summary .....	14-86
14.5 COMPARISON OF ALTERNATIVES .....	14-86
14.5.1 Cost Comparison of Alternatives .....	14-86
14.5.2 Construction Risk and Performance Reliability Comparison of Alternatives .....	14-89
14.5.3 Environmental Comparison of Alternatives After Mitigation .....	14-90
14.5.4 Preferred Alternative .....	14-90
CHAPTER 15 - CAMBRIDGE CAM005 HYDRAULIC RELIEF .....	15-1
15.1 INTRODUCTION AND PROJECT BACKGROUND .....	15-2
15.2 CONCEPTUAL PLANNING EVALUATIONS .....	15-5
15.2.1 Review of Conceptual Planning Alternatives .....	15-5
15.2.2 Proposed Change to Conceptual Planning Recommendation .....	15-18
15.3 PROJECT OBJECTIVES AND DESIGN CRITERIA .....	15-20
15.3.1 Project Objectives .....	15-20

## TABLE OF CONTENTS (Cont'd)

	<u>Page</u>
15.3.2 Design Criteria .....	15-21
15.4 ENGINEERING EVALUATION .....	15-23
15.4.1 Interceptor Diversion Structure Weir Adjustment .....	15-25
15.4.2 Pipe Capacity Increase Between RE-051 and Interceptor Diversion Structure .....	15-26
15.4.3 Partial Sewer Separation .....	15-26
15.4.4 Complete Sewer Separation .....	15-28
15.4.5 Dry Weather Flow Connection Capacity Increase, and Raising of Weir .....	15-28
15.4.6 Floatables Control .....	15-30
15.4.7 Summary .....	15-54
15.5 COMPARISON OF ALTERNATIVES .....	15-54
15.6 OPTIMIZATION OF THE PREFERRED ALTERNATIVE .....	15-56
15.6.1 CSO Volumes and Pollutant Loads .....	15-56
15.6.2 Cost-Effectiveness Analysis .....	15-58
15.7 ENVIRONMENTAL EVALUATION .....	15-73
15.7.1 Baseline Environmental Conditions .....	15-73
15.7.2 Environmental Impacts .....	15-73
 CHAPTER 16 - CHARLESTOWN BOS019 STORAGE CONDUIT .....	 16-1
16.1 INTRODUCTION AND PROJECT BACKGROUND .....	16-2
16.2 CONCEPTUAL PLANNING EVALUATIONS .....	16-5
16.2.1 Review of Conceptual Planning Alternatives .....	16-5
16.2.2 Proposed Change to Conceptual Planning Recommendation .....	16-19
16.3 PROJECT OBJECTIVES AND DESIGN CRITERIA .....	16-20
16.3.1 Project Objectives .....	16-20
16.3.2 Design Criteria .....	16-20
16.4 ENGINEERING ALTERNATIVES AND EVALUATIONS .....	16-26
16.4.1 Floatables Control Technologies for the Screening and Disinfection Facility Alternative .....	16-26
16.4.2 Disinfection Technologies .....	16-43
16.4.3 Site Alternatives Evaluations .....	16-54
16.4.4 Floatables Control for the Storage Conduit Alternative .....	16-70
16.4.5 Summary .....	16-73
16.5 COMPARISON OF ALTERNATIVES .....	16-73
16.5.1 Cost Comparison of Alternatives .....	16-77
16.5.2 Construction Risk and Performance Reliability Comparison of Alternatives .....	16-77
16.5.3 Environmental Comparison of Alternatives After Mitigation .....	16-78
16.5.4 Preferred Alternative .....	16-79

## TABLE OF CONTENTS (Cont'd)

	<u>Page</u>
16.6 OPTIMIZATION OF THE PREFERRED ALTERNATIVE .....	16-80
16.6.1 CSO Volumes and Pollutant Loads .....	16-80
16.6.2 Cost-Effectiveness Analysis .....	16-83
16.7 ENVIRONMENTAL EVALUATION .....	16-93
16.7.1 Baseline Environmental Conditions .....	16-94
16.7.2 Environmental Impacts .....	16-94
CHAPTER 17 - CHARLESTOWN BOS017 HYDRAULIC RELIEF .....	17-1
17.1 INTRODUCTION AND PROJECT BACKGROUND .....	17-2
17.2 CONCEPTUAL PLANNING EVALUATIONS .....	17-5
17.2.1 Review of Conceptual Planning Alternatives .....	17-5
17.2.2 Proposed Change to Conceptual Planning Recommendation .....	17-17
17.3 PROJECT OBJECTIVES AND DESIGN CRITERIA .....	17-20
17.3.1 Project Objectives .....	17-20
17.3.2 Design Criteria .....	17-20
17.4 ENGINEERING EVALUATION .....	17-22
17.4.1 Interceptor Connection Relief .....	17-24
17.4.2 Interceptor Connection Relief and Closing Outfall BOS017 .....	17-25
17.4.3 Hydraulic Relief Upstream of RE017-3 .....	17-25
17.4.4 Floatables Control for the Hydraulic Relief Alternative .....	17-29
17.4.5 Summary .....	17-33
17.5 COMPARISON OF ALTERNATIVES .....	17-33
17.6 OPTIMIZATION OF PREFERRED ALTERNATIVE .....	17-34
17.6.1 CSO Volumes and Pollutant Loads .....	17-35
17.6.2 Cost-Effectiveness Analysis .....	17-37
17.7 ENVIRONMENTAL EVALUATION .....	17-42
CHAPTER 18 - UNION PARK DETENTION/TREATMENT FACILITY .....	18-1
18.1 INTRODUCTION AND PROJECT BACKGROUND .....	18-2
18.2 CONCEPTUAL PLANNING EVALUATIONS .....	18-5
18.3 PROJECT OBJECTIVES AND DESIGN CRITERIA .....	18-17
18.3.1 Project Objectives .....	18-18
18.3.2 Design Criteria .....	18-19
18.4 ENGINEERING ALTERNATIVES AND EVALUATIONS .....	18-22
18.4.1 Floatables Control Technologies for Detention/Treatment Facility .	18-23
18.4.2 Disinfection/Dechlorination Technologies .....	18-30
18.4.3 Site Alternatives Evaluations .....	18-41
18.4.4 Summary .....	18-55
18.5 COMPARISON OF ALTERNATIVES .....	18-58
18.5.1 Cost Comparison of Alternatives .....	18-58

## TABLE OF CONTENTS (Cont'd)

	<u>Page</u>
18.5.2 Construction Risk and Performance Reliability Comparison of Alternatives .....	18-61
18.5.3 Environmental Comparison of Alternatives After Mitigation .....	18-62
18.5.4 Preferred Alternative .....	18-64
18.6 ENVIRONMENTAL EVALUATION .....	18-65
<b>CHAPTER 19 - EAST BOSTON BRANCH SEWER RELIEF .....</b>	<b>19-1</b>
19.1 INTRODUCTION AND PROJECT BACKGROUND .....	19-2
19.2 CONCEPTUAL PLANNING EVALUATIONS .....	19-6
19.3 PROJECT OBJECTIVES AND DESIGN CRITERIA .....	19-30
19.3.1 Project Objectives .....	19-30
19.3.2 Design Criteria .....	19-32
19.4 ENGINEERING ALTERNATIVES AND EVALUATIONS .....	19-37
19.4.1 Hydraulic Evaluations .....	19-37
19.4.2 Route Sections and Route Alternatives .....	19-39
19.4.3 Outfall Closing and Floatables Control .....	19-79
19.4.4 Summary .....	19-84
19.5 COMPARISON OF ALTERNATIVES .....	19-84
19.5.1 Common Elements .....	19-94
19.5.2 Route Alternative 1 .....	19-101
19.5.3 Route Alternative 2 .....	19-113
19.5.4 Comparison of Route Alternatives 1 and 2 .....	19-117
19.5.5 Summary of Preferred Alternative .....	19-123
19.7 ENVIRONMENTAL EVALUATION .....	19-126
19.7.1 Baseline Environmental Conditions .....	19-126
19.7.2 Environmental Impacts .....	19-126
<b>CHAPTER 20 - CHELSEA TRUNK SEWER RELIEF .....</b>	<b>20-1</b>
20.1 INTRODUCTION AND PROJECT BACKGROUND .....	20-2
20.2 CONCEPTUAL PLANNING EVALUATIONS .....	20-6
20.3 PROJECT OBJECTIVES AND DESIGN CRITERIA .....	20-18
20.3.1 Project Objectives .....	20-18
20.3.2 Design Criteria .....	20-18
20.4 ENGINEERING ALTERNATIVES AND EVALUATIONS .....	20-22
20.4.1 Hydraulic Evaluations .....	20-22
20.4.2 Route Sections and Route Alternatives .....	20-23
20.4.3 Outfall Closing and Floatables Control .....	20-48
20.4.4 Summary .....	20-51
20.5 COMPARISON OF ALTERNATIVES .....	20-51
20.5.1 Section C .....	20-59

## TABLE OF CONTENTS (Cont'd)

	<u>Page</u>
20.5.2 Section B .....	20-61
20.5.3 Section A .....	20-61
20.5.4 Summary of Preferred Alternative .....	20-63
20.6 ENVIRONMENTAL EVALUATIONS .....	20-65
CHAPTER 21 - CHELSEA BRANCH SEWER RELIEF .....	21-1
21.1 INTRODUCTION AND PROJECT BACKGROUND .....	21-2
21.2 CONCEPTUAL PLANNING EVALUATIONS .....	21-5
21.3 PROJECT OBJECTIVES AND DESIGN CRITERIA .....	21-5
21.3.1 Project Objectives .....	21-6
21.3.2 Design Criteria .....	21-6
Hydraulic Criteria .....	21-8
21.4 ENGINEERING ALTERNATIVES AND EVALUATIONS .....	21-11
21.4.1 Hydraulic Evaluations .....	21-11
21.4.2 Route Sections and Route Alternatives .....	21-15
21.4.3 Summary .....	21-23
21.5 COMPARISON OF ALTERNATIVES .....	21-28
21.5.1 Section C .....	21-29
21.5.2 Section D .....	21-33
21.5.3 Summary of Preferred Alternative .....	21-36
21.6 ENVIRONMENTAL EVALUATION .....	21-37
CHAPTER 22 - DORCHESTER BROOK IN-SYSTEM STORAGE .....	22-1
22.1 INTRODUCTION AND PROJECT BACKGROUND .....	22-2
22.2 CONCEPTUAL PLANNING EVALUATION .....	22-5
22.3 PROJECT OBJECTIVES AND DESIGN CRITERIA .....	22-17
22.3.1 Project Objectives .....	22-17
22.3.2 Design Criteria .....	22-18
22.4 ENGINEERING EVALUATIONS .....	22-18
22.4.1 In-System Storage .....	22-18
22.4.2 Project Alternatives and Model Refinements .....	22-19
22.4.3 Floatables Control .....	22-22
22.5 COMPARISON OF ALTERNATIVES .....	22-25
CHAPTER 23 - CHELSEA CHE008 OUTFALL IMPROVEMENT .....	23-1
23.1 INTRODUCTION AND PROJECT BACKGROUND .....	23-2
23.2 CONCEPTUAL PLANNING EVALUATIONS .....	23-4
23.3 PROJECT OBJECTIVES AND DESIGN CRITERIA .....	23-17
23.3.1 Project Objectives .....	23-17
23.3.2 Design Criteria .....	23-18

## TABLE OF CONTENTS (Cont'd)

	<u>Page</u>
23.4 ENGINEERING ALTERNATIVES AND EVALUATIONS .....	23-19
23.4.1 Existing Outfall Evaluations .....	23-19
23.4.2 Outfall Improvement Alternatives .....	23-19
23.4.3 Floatables Control .....	23-21
23.5 COMPARISON OF ALTERNATIVES .....	23-24
CHAPTER 24 - COTTAGE FARM OUTFALL IMPROVEMENT .....	24-1
24.1 INTRODUCTION AND PROJECT BACKGROUND .....	24-1
24.2 PROJECT OBJECTIVES AND DESIGN CRITERIA .....	24-6
24.2.1 Project Objectives .....	24-6
24.2.2 Design Criteria .....	24-6
24.3 ENGINEERING EVALUATIONS .....	24-7
24.3.1 Hydraulic Evaluation .....	24-7
24.3.2 Mixing (Dispersion) Evaluation .....	24-12
24.3.3 Activities Since Completion of the DEIR .....	24-13
24.3.4 Summary .....	24-17
24.4 COMPARISON OF ALTERNATIVES .....	24-17
CHAPTER 25 - PROJECTS NOT SUBJECT TO FACILITIES PLANNING/ ENVIRONMENTAL REVIEW .....	25-1
25.1 SEWER SEPARATION PROJECTS .....	25-2
25.1.1 Dorchester Sewer Separation (Outfalls BOS088/089, BOS090) ....	25-2
25.1.2 Neponset Sewer Separation (Outfalls BOS093, BOS095) .....	25-14
25.1.3 Constitution Beach Sewer Separation (Outfall MWR207) .....	25-27
25.1.4 Alewife Brook Sewer Separation (Outfalls CAM002, CAM004, SOM001, and SOM004) .....	25-36
25.1.5 Sewer Separation in the Upper Mystic River (Outfalls SOM006 and SOM007) .....	25-48
25.2 EXISTING CSO FACILITY UPGRADE PROJECTS .....	25-54
25.2.1 Cottage Farm CSO Facility (Outfall MWR201) .....	25-55
25.2.2 Prison Point CSO Facility (Outfall MWR203) .....	25-84
25.2.3 Somerville Marginal CSO Facility (Outfall MWR205) .....	25-95
25.3 INDEPENDENT FLOATABLES CONTROL PROJECTS .....	25-108
25.3.1 Upper Charles River Independent Floatables Control Projects ...	25-110
25.3.2 Lower Charles River Independent Floatables Control Projects ...	25-115
25.3.3 Upper Inner Harbor Independent Floatables Control Projects ....	25-119
25.3.4 Fort Point Channel Independent Floatables Control Projects ....	25-131
CHAPTER 26 - RECOMMENDED PLAN .....	26-1
26.1 OVERVIEW OF RECOMMENDED PLAN .....	26-1
26.1.1 Components of the Recommended Plan .....	26-3

## TABLE OF CONTENTS (Cont'd)

	<u>Page</u>
26.1.2 Organization of this Chapter . . . . .	26-5
26.1.3 Water Quality Modeling . . . . .	26-6
Charles River and Mystic River/Alewife Brook Models. . . . .	26-7
Boston Harbor Water Quality Modeling. . . . .	26-13
26.1.4 Environmental Impacts of Disinfection . . . . .	26-16
26.2 NORTH DORCHESTER BAY . . . . .	26-19
26.2.1 Baseline Water Quality and Future Planned Conditions . . . . .	26-19
26.2.2 Water Quality Impacts of Recommended Plan . . . . .	26-27
26.2.3 North Dorchester Bay Consolidation Conduit . . . . .	26-35
26.3 SOUTH DORCHESTER BAY . . . . .	26-60
26.3.1 Baseline Water Quality and Future Planned Conditions . . . . .	26-60
26.3.2 Water Quality Impacts of Recommended Plan . . . . .	26-64
26.3.3 Sewer Separation at BOS088 through BOS090 . . . . .	26-71
26.3.4 Upgrade of Fox Point CSO Facility . . . . .	26-72
26.3.5 Upgrade of Commercial Point CSO Facility . . . . .	26-73
26.4 NEPONSET RIVER . . . . .	26-75
26.4.1 Baseline Water Quality and Future Planned Conditions . . . . .	26-75
26.4.2 Water Quality Impacts of Recommended Plan . . . . .	26-78
26.4.3 Sewer Separation at BOS093 through BOS095 . . . . .	26-83
26.5 CONSTITUTION BEACH . . . . .	26-86
26.5.1 Baseline Water Quality and Future Planned Conditions . . . . .	26-86
26.5.2 Water Quality Impacts of Recommended Plan . . . . .	26-92
